*Mutual*, and *WCI Communities*. FTI has a wealth of experience in providing restructuring and financial advisory services in restructurings and reorganizations and enjoys an excellent reputation for services it has rendered in large and complex chapter 11 cases on behalf of debtors and creditors throughout the United States.

**SERVICES TO BE RENDERED AND PROFESSIONAL COMPENSATION**

3. The scope of services to be performed by FTI is accurately set forth in the Application and the Engagement Agreement.

4. Subject to Court approval and in accordance with the applicable provisions of the Bankruptcy Code, the Bankruptcy Rules, applicable U.S. Trustee guidelines, and the Local Rules, FTI will seek from the Debtors payment for compensation on an hourly basis and reimbursement of actual and necessary expenses incurred by FTI. FTI's customary hourly rates as charged in bankruptcy and non-bankruptcy matters of this type by the professionals assigned to this engagement are outlined in the Application. These hourly rates are adjusted annually.

5. The Debtors and FTI will coordinate to avoid any unnecessary duplication of services. I believe FTI will provide these necessary services in a cost-effective, efficient and timely manner.

6. To the best of my knowledge, information and belief, FTI has not received any promises as to compensation in connection with these cases other than as outlined in the Engagement Agreement. FTI has no agreement with any other entity to share any compensation received with any person other than the principals and the employees of FTI.

**DISINTERESTEDNESS OF FTI**

To the best of my knowledge, information and belief, FTI is a "disinterested person" as defined in section 101(14) of the Bankruptcy Code, as modified by section 1107(b) of the

Bankruptcy Code, and therefore, FTI's employment is permissible under section 327(a) and 328(a) of the Bankruptcy Code.

Specifically, to check and clear potential conflicts of interest in these chapter 11 cases, FTI reviewed its client relationships to determine whether it had any relationships with the parties identified on **Schedule 1** hereto (collectively, the "**Potential Parties in Interest**"). Based on that search, FTI represents that, to the best of its knowledge, neither FTI nor any of its professional personnel have any relationship with the Debtors that would impair FTI's ability to perform services for the Debtors. To the best of my knowledge and except as set forth herein and on **Schedule 2** hereto, FTI has no connections with the Debtors or the Potential Parties in Interest.

Further, as part of its diverse practice, FTI appears in numerous cases and proceedings, and participates in transactions that involve many different professionals, including attorneys, accountants, and financial consultants, who represent potential claimants and Potential Parties in Interest in the chapter 11 cases. FTI has performed in the past, and may perform in the future, advisory consulting services for various attorneys and law firms, and has been represented by several attorneys and law firms, some of whom may be involved in these proceedings. FTI further has performed in the past, and may perform in the future, advisory services for various utilities and insurance parties identified on **Schedule 1**. Based on our current knowledge of the professionals involved, and to the best of my knowledge, none of these relationships create interests materially adverse to the Debtors in matters upon which FTI is to be employed, and none are in connection with these cases.

To the best of my knowledge, no employee of FTI is a relative of, or has been connected with, the U.S. Trustee in this district or his or her employees.

If the Debtors or FTI are made aware of any new material facts or relationships, FTI will provide the Court with supplemental disclosures detailing, among other things, any new potential conflicts between the Debtors and FTI, or other significant parties in interest.

At the beginning of its engagement by the Debtors, FTI received an advance payment retainer of \$300,000. During the 90-day period prior to the Petition Date, the Debtors paid in the ordinary course certain fees and expense reimbursements due under the Engagement Agreement. Specifically, according to the Debtors' books and records, the Debtors paid FTI actual or estimated to be incurred Fees and Expenses in the amount of \$1,698,473.95. FTI's actual fees during this period were \$1,643,638.39, resulting in overpayment by the Debtors of \$54,835.56. As a result, FTI now holds a retainer of \$354,835.56 for services to be rendered and expenses to be incurred in connection with its representation of the Debtors.

I declare under penalty of perjury under the laws of the United States of America that the foregoing is true and correct.
